So now U want 2 leave me, but why U will not say  
Then don't tell me why, just tell me that U'll never go  
away

Oh, don't give up now, girl, we've been through so  
much more

Oh, can't U see U're the only thing that I'm living 4

The world's a cold and empty place

Without a love 2 keep U warm

Oh, hold me in your arms 2night

Don't U know we'll make it, make it through the storm

Our love is pain and pleasure but I keep holding on

Cuz I never want 2 lose your love, gotta help me make  
it strong

Just hold me tight, I'm yours 2night, your love will keep  
me warm

Hold me in your arms 2night, we'll make it through the  
storm

The world's such an empty place

Without a love 2 keep U warm

Oh, hold me in your arms 2night

Don't U know we'll make it, make it through the storm

Yeah, yeah, yeah, yeah [x2]

(We're gonna make it, we got 2 make it)

(We're gonna make it) [repeats in BG]

Make it through the storm

The wind, the wind, your heart is so cold

I can make it

Make it through the storm

Your love, your love, your love is pain and pleasure

U, it's U, it's U I'll always treasure

We'll make it through the storm [x2]
