New world, new world, new world, new world

When the sharpest vibration saves you from  
obliteration  
The intelligence of your bed reacts  
Covering you head to toe with an air-filled sack

When the lines blur every boy and girl  
How we gonna make it in this brave new world?  
Love for one another, new world  
Love for one another, new world

When you wanna find some isolation  
But the tracker you got from vaccination keeps playin'  
Keeps playin', "You'll never walk alone", over and over  
They're always listening, especially on the phone

When the lines blur every boy and girl  
How we gonna make it in this brave new world?  
Love for one another, new world  
Love for one another, new world

Wait a minute, new world

Did you hear about the new pill? It feels like sex  
Guaranteed to thrill with no ill side-effects  
A pill that will stop the wrinkles, a pill that will stop the  
pain  
A pill that will make a baby never seek political gain

What's it all for when you can alter biology?  
Who or what, then my friend, will you and I be?  
What's it all for when you can alter biology?  
Who or what, then my friend, will you and I be?

When the sharpest vibration saves you from  
obliteration  
When the melting pot stirs, how you gonna take it?  
When you can't tell him from her, how you gonna fake  
it?

When the lines blur every boy and girl

How you gonna make it in this brave new world?  
Love for one another, new world, love for one another  
How you gonna take it? How you gonna fake it?

Love for one another, how you gonna take it?  
New world, new world, new world
