U don't have 2 send me flowers like U used 2 do
U don't have 2 buy me candy, I'll still be your fool
All I ask is 4 a little decency and class
Next time wipe the lipstick off your collar

U don't have 2 take me dancing, our backyard will do
We don't have 2 eat 2 fancy, hamburgers are cool
I don't care if U stay out until the break of dawn
Next time wipe the lipstick off your collar

Can't U understand I want a true love man?
Can't U comprehend I want a lover, not a friend?

I don't care 4 sugar-coated flattery, french kiss will suffice
Blame our sex on your run-down battery, holding U is nice
I know when U're lying baby, there's no need 2 scream
There's no need 2 shout
Next time wipe the lipstick off your collar

If U weren't so tired baby, we'd be on the floor
We'd be makin' love right now, ooh
Next time wipe the lipstick off your collar
