Meanwhile, somewhere in outer space

Photelic drive stable at this time, ha, ha
You havn't even seen Tommy, have ya?
(No)

A million, two hundred million kilowatts per second
Captain
Yes, Ensign Elm
I will be taking a weekend furlough down in the

What, that's not fast enough
We have too get up too for
That's right, it's fast when we fix it
It has too be

I'm going to the intergalactic Glam Slam down there
(Furlough, what do you mean? Try it, it's fast)
What kind of piece of junk is this?
I'm going too the intergalactic carnival
This shipment's voodoo
I'm gonna send it, 8 million before?

I'm goin' fishin' 'cause that's my style
(Godamn it, I tried 2 fix this shit)
Wait, wait a minute, what is this?
(Huh, I don't know)

Try a little more
I don't, oh my, I better tell the Captain
(Fuck the Captain)
Captain?

I'm getting some strange readings on my vanilla scope
Maybe you should take a listen, leave me alone
I'm busy hookin' up the world too my latest creation
The Endorphin Machine
(Yep, uh huh)
The only one of its kind
(The only one of its kind, uh, huh)

I don't know Captain, you better come check this out
I have all the best minds in Europe

(Every one, yep)
And soon I'll have all the minds of the world

Ha, ha, ha, ha
(Ha, ha, ha, ha)
But it appears too be getting louder and closer
Huh, oh my God, it's them

What up muthafuckas?
Stay calm and no one will be hurt
Watch out!, what he'd say?
What, what, what's that?
Get out of the way

Hey, come here you, get your ass over here
Get your ass on the floor, we takin' this shit over
Get your hand out of your pants, I see ya
Take your hands out of your pants right now
Get 'em out of there, come here, get on the floor

What? Fellas?
Get over here now
I'll whip your ass
Who? What? Where?
Ask him? What? Who?

Get them to say 'em
Leave me alone, what? What?
You don't have to ask us now
Come here, goddamn it
Hey, I've had enough
I think we got control now

U will be moved when the NPG come
And take a chunk of your ass
