(Push it up! Push it up!)
Put your hands up, come on
(Push it up!)
Huh, yeah, this is it, this is it
(Push it up!)
This is it

I think they got to get ready for this one here
Come on!
(Ooh, everybody's here)
Say what?
(This is the jam of the year)

Huh, what did I hear?
(Push it up! Push it up!)
Uh, wasn't quite clear
(Ooh, everybody's here)
Say what?
(This is the jam of the year)

Oh, huh
I hear ya, huh
(Push it up! Push it up!)
Come on, uh

If you're ever down draggin' on the ground
Face twisted with a funky frown
Let me turn you on to somethin' that I found
To make you feel good, feel good

Negativity like gravity
Gotcha fallin' fast from reality
You gotta get up, put up, move up
And just do what you should, you should

Realize that you are somebody
Come on, y'all, and join the party
Everybody grab a body
And feel good, you should

Push it up! Push it up! Push it up! Push it up!
(Ooh, everybody's here, this is the jam of the year)

(Push it up! Push it up!)
Push it up! Push it up! Push it up! Push it up!
(Ooh, everybody's here, this is the jam of the year)
(Push it up! Push it up!)

Push it up! Push it up to the sky
You don't have to have a plane to fly
If you listen to the truth and not the lie
Stop cryin', cryin'

In harmony, can't you see
Every color all in the same key
And that's the way Jah wants us to be
Start tryin', a-tryin'

Realize that you are somebody
Come on y'all, and join the party
Everybody grab a body
And feel good, you should

Push it up! Push it up! Push it up! Push it up!
(Ooh, everybody's here, this is the jam of the year)
(Push it up! Push it up!)
Push it up! Push it up! Push it up! Push it up!
(Ooh, everybody's here, this is the jam of the year)
(Push it up! Push it up!)

Come on
Wake up your body, wake up your body
Wake up your body and move it around
Come on, yeah, huh
Where the party at in here, y'all?
Where the party goin' down in here? Uh

Now I wanna know who's ready to show me
Get on down with the one and only party ambassador
Flip styles like a spatula mac-tacula
More Legend than a new Acura
Body tone stone while I rap to her

Capture her thinkin' I'm a mac to her
Just because, I'm attracted to her
But the fact of the matter is the dance floor's phatter
The crowd's on fire as we push it up higher

Push it up!
Come on, y'all
Push it up!
Put your hands in the air

Push it up!

Come on, y'all
Push it up!
While the artist turn it up
Come, uh!

Yeah, huh
Break it on down
(Push it! Push it up!)
Huh

This is the jam, this is the jam, this is the jam of the
year
This is the jam, this is the jam, this is the jam of the
year
Push it up! Push it up! Push it up! Push it up!
Push it up! Push it up! Push it up! Push it up!
Push it up! Push it up! Push it up! Push it up!

Everybody grab a body, everybody Push it up!
Everybody grab a body, everybody Push it up!
On and on till the early morn'
Push it up!
