Saviour

How did I ever come this far without you, baby?
What was I thinkin', what was I tryin' to be?
Never did you ever give me reason to doubt you, baby
You are my destiny and this I truly see

I can see, we're like two petals from the same flower,
baby
We're like two branches from the same tree
Whenever I look in your eyes, I can see a paradise
You're my Saviour, you're all I ever need
(Saviour)

I used to say, no one lover could have me, no one lover
That was before my eyes had seen the light
To make love with another, uh uh, I couldn't do it, no
way
(Couldn't do it)
You're my Saviour, you're the only one that does it right
(Saviour)

Can't you see, we're like two petals from the same
flower, baby?
We're like two branches from the same tree
Whenever I look in your eyes, I can see a paradise
You're my Saviour, you're all I ever need

What would I be without your love around me?
(Oh, what would I be, oh, without your love?)
What would I see, you constantly astound me?
(Oh baby, you know, you constantly astound me)
Saviour, Saviour

Yeah!
Well, oh!
(Saviour)

Oh, how did I come this far
(How did I?)
Without you, baby? I don't know
(Without you, baby)

What was I thinkin'
(What was I thinkin')
What was I tryin' to be?
(I don't know)
But what I do know is that

(Can't you see we're like)
We're like two petals from the same flower, baby
We're like two branches from the same tree
(Two drops of water from the same sea)
Whenever I look in your eyes, I can see a paradise

You're my Saviour, you're all I
You're my Saviour, you're all I ever
You're my Saviour, you're all I ever need
(Saviour)
Saviour, you're all I ever need

Saviour, you
(I do)
You are my flower, baby
(Flower)
Ooh, every, every hour
(Hour)
Oh, yes you are

Won't you come and justa
(Won't you come and justa)
Rain, I said rain!
(Won't you come and justa)
Rain, rain, rain!
(Rain some of your sweet love down on me?)
Down on me! Down on me!

Saviour! Saviour! Saviour!
Yeah! Yeah!
Down on me!
