So my name is Endorphin, I can make you happy you
see

I come from planet Venus and I'll take you there

You could be my ecstasy

The 80's are over and the time has come

For a new proclamation of love and fun

Monogamy and trust is what I'm talkin' 'bout

I'll give up all my lovers if you can make me shout

Oh, S is for scandalous

E is for exciting

X is for adults only

Let's do something frightening

Sex, sex

Can't stop the feelin' baby, nobody should

Sex, sex

Anything this dangerous has to be good

Now I'm the type of alien who knows just what he wants

But you're the type who plays in the trees

You got it, maybe that's why you float

I climb a thousand trees if I have to

But baby, I'm warnin' you

One of us is gonna end up on our knees

Sex, sex

Can't stop the feelin' baby, nobody should

Sex, sex

Anything this dangerous has to be good, good, good

Just has to be sex, sex

(Get up)

On the chair, baby, let me dance under your skirt

(Get up)

Everybody on the dance floor now

Get up, on the table now, let me show you how to flirt

(Get up)

I like it, baby, when you let me touch you there

I like it, girl, I knew you wasn't wearin' any underwear

Baby, is it wrong that I want you so

I want you baby, I want you now

S E X

Sex, sex
Can't stop the feelin' baby, nobody should
Sex, sex
Anything this dangerous has to be good

Just has to be good
Fellas, all the boys that know 'bout the good thing, say,
yeah, yeah
And all the girls with no underwear on say yes
(Yes)
We're gettin' funky tonight

Sex, yo, pick this up
Fellas, I want everybody sayin'it on the one, come on S
E X
Say it S E X, come on S E X, say it S E X
Keep that goin', fellas

Come on, yeah, come on
(S E X, S E X, S E X)
Ladies, back'em up one time, is the best
(S E X, S E X)
Come on
(Is the best, is the best, is the best)

One lover, sex
(I don't think you heard me)
One lover, sex
(Yeah)

Two lovers, death
(Quit it)
Two lovers, death

So my name is Endorphin, I can make you happy you
see
I come from planet Venus and I'll take you there
You can be my ecstasy
Now's the time for you to rock the nation with love and
fun
Do the nasty with one love but only one

Oh, sex
