Shake

Hey, hey people what you come here for?
Come on everybody, let's get out on the floor
All the pretty girls shaking what they got
The boys swear to God that they're all too hot

Everybody shake

You got to shake something, my Lord

Shake

You got to shake something

Come on pretty baby, now don't be shy

New liberated girl, ask a guy

We can go dancing baby, every night

Shake, shake, shake, shake, shake

But you got to shake your body 'til the early, early light

Everybody shake

Shake, shake, shake

You got to shake something, my Lord

Shake

You got to shake something, sing with me now

Lucy's standing there with the false hair on

Don't shake it too hard or that hair will be gone, oops

Marilyn's so worried about her two left feet

Pretty thing keeps worrying about keeping on her feet

That don't matter y'all, come on

Shake, oh Lord

You got to shake something

Everybody shake

Shake, shake, shake

You got to shake something, yeah, yeah, yeah

Shake

Shake, shake, shake, come on y'all

You got to shake something

Shake

Shake, shake, shake

Every, everybody

Hey, hey, people what you come here for?
(We want to shake something, shake)
Come on everybody let's get out on the floor
(Gotta shake something)
You shake it to the north, you shake it to the south
(Gotta shake something)

Somebody help me with this
Shake, you come to party now open up your mouth
(Gotta shake something)
Come on, oh yeah, yeah

Shake, shake
You gotta shake something
Oh, don't stop

Oh, shake
Shake, shake, shake
Shake
Shake on it, for me

Shake
You're hired, let's go
Shake
Shake, gotta shake something now
