She's just a baby, a baby  
But she's my lady  
My lover, my only friend

She's just a baby  
But maybe she'll understand  
That I am made of a true love  
That will never end (Hey, hey)

People don't understand what she sees in an older man  
They never stop 2 think that maybe I'm what she's  
lookin' 4  
They never take the time 2 look into her mind  
They just keep on sayin' she's just a baby  
But maybe one day they will see  
She's not such a baby, no baby is she  
She's just in love with me

She's just a baby, a baby  
But she's my lady  
I know there are some things she'll never see

She's just a baby  
But maybe one day she'll see  
Although she's young  
She's the only one that can bring out the man in me  
Can't U see? Yeah

People don't understand what she sees in this lonely  
man  
Don't they know that everybody needs somebody  
sometime? Oh  
I give her all I can  
But the people don't give a damn  
They just keep on sayin' that she's just a baby  
But maybe one day they will see  
She's not such a baby, no baby is she  
She's just in love with me  
Oh no, no, no, yeah
