Do it like she like, do it like she like it
Do it like she like, do it like she like it
Do it like she like, do it like she like it
Do it like she like, do it like she like it

Do it like she like it
So your baby don't wanna sleep around
Give her what she want, when she want
When it come to you she down

Baby, let me read her journal
Or should I say, she turned around and it was gone
The innuendo reads eternal
Or should I say, every other page I'm on

When she come to cook your dinner
You can ask her if what I say is true
The secret will remain within her
But her shade of red will turn your's blue

Do it like she like it
So your baby don't wanna sleep around
Give her what she want, when she want
When it come to you she down

Maybe you recall last summer
When you saw her ridin' in my car
A kiss or two later she was back in your bed
Smellin' like a fallen star

Just because she's fine
You think she don't wine and dine
With everyone you know

Oh, long as you're fooled, I'm cool
She says she gonna put me in a video
You need to

Do it like she like it
So your baby don't wanna sleep around
Give her what she want, when she want
When it come to you she down

Oh, yeah
Sleep around, sleep around
Sleep around, sleep around

I'm the one who sent the herbs
And a book on how to use them
I'm the one who pointed out her fears
And how to lose them

And if a difference love will make
This advice you oughta take

Baby, let me read her journal
Or should I say, she turned around and it was gone
The innuendo reads eternal
Or should I say, every other page I'm on
You need to

Do it like she like, do it like she like it
(Sleep around, sleep around, sleep around)
Do it like she like it, like it, like it

Do it like she like it
So your baby don't wanna sleep around
Give her what she want when she want it
When it come to you, she down
Sleep around, sleep around

Do it like she like it
So your baby don't wanna sleep around
(I'm watchin' you, baby)

(Do it like she like it, do it)
Give her what she want, when she want it
When it come to you, she down
(Do it like she like)
Sleep around, sleep around

Do it like she like, do it like she like it
Do it like she like, do it like she like it
Do it like she like, do it like she like it
Do it like she like, do it like she like it

Sleep around, sleep around
Sleep around, sleep around
Sleep around

Do it like she like, do it like she like
Do it like she like, do it like she like
Do it like she like

Do it like she like it, do it like she like
Do it, do it, do it, do it, do it
Do it, do it, do it, do it, do it

Do it like she like it
(Sleep around)
