

Prince "Song Of The Heart"

Visit "[Song Of The Heart](#)" on MotoLyrics.com

You might make a different song
Yes, that's right, it's true
That don't make anybody
More or less as good as you

If you can't feel the music
That's all you really need
Then turn this party all the way out
Good time guaranteed

Everybody get up, clap your hands
Dancin' to the beat
Whatever you do little darlin'
It's cool just get up out your seat

Wave your flag
Because everybody plays a part
One world united
Singing the song of the heart

Song, the song of the heart
The song, the song of the heart

Look everybody makes mistakes
Oh yeah, not one or two
That don't make the dirty little things
They say about you true

You tell 'em, step aside little babies
And watch me do my thing
And I don't even need a good reason to do
Just listen to me sing

Everybody get up, clap your hands
And show them what you got
Tonight we gonna jam from now until eternity
Don't you stop, make it hot oh

Wave your flag
Because everybody plays a part
One world united
Singing this song, this song of the heart

The song, the song of the heart
The song, the song of the heart

Come on, watch me now

Oh, I don't care what the people say
This is my life
I just got to like that okay
They can go fly their momma's kite

We can be together if we all do a part
I'll let you if you let me sing the song of the heart
We can be together if we all do a part
I'll let you if you let me sing the song

Song of the heart

One world, one world, one world united
Singing the song, singing the song
Singing the, singing the, singing the
Singing the song of the heart

The song, the song of the heart
The song, the song of the heart
The song, the song of the heart

The song of the heart
The song of the heart
The song of the heart
