How did I get in this predicament?
How did I get in this jam?
The person that they accuse me of being of
That's not the one I really am

I am the one that really loves u
With all my mind, body and soul
With every stroke of my brush I wanna paint a wall
around u
So that u will never know

All the pain that a human has 2 go through
In a planet that's so bitter and cold
Universal love awaits u baby
All u got 2 say is that u really really really want 2 go
And we're outta here

(The space)
Do you wanna (space)
Do u want 2 go? (space)
Where the souls go (space)
Where the tears flow (space)
Where the love grows
Do u want 2 go?

How did I let u hypnotize me?

Did it have anything 2 do with your lips?
Did it have anything 2 do with your cool disposition?
Did it have anything 2 do with your kiss?

Where in the world did u learn 2 put your arms around
me
And cause my temperature 2 rise
Sometimes I get the feeling this was all meant 2 be
Just like the sun and moon u and I

All the pain that a human has 2 go through
In a planet that's so bitter and cold (so cold)
Universal love awaits u baby (it awaits you baby)
all u got 2 say is that u (all you got 2 do)
really really really want 2 go (all you got 2 do)
(is say that you
really really really
and we're outta here want 2 go)
(oh yeah)

(The space)
Do you wanna (do you wanna)
Do u want 2 go? (space)
Where the souls go (space)
Where the tears flow (space)
Where the love grows
Do u want 2 go?

This is the space where my love goes
Lay back, lay back and let the vibe flow
This is the space where my hands go

If they're 2 hot, the ice should be cold
This is the space where the cream flows
over my shoulder till my friend grows
On and over until we both know
universal love in the 9-4
