Wheels go down  
There but I'm loving another dream of you  
All night long  
Out of town  
I had to go but now I need a cup of some  
Black and strong  
Beside me  
I was used to waking up with you here  
Now you're gone  
Why oh why  
Didn't you hurry along with me this time?  
Right or wrong  
As a matter of fact, I can't stop thinking about you,  
baby  
When we're together, everything is cool  
Beautiful, lover, friend  
I'll never leave you again  
You and me, we're sticky like glue  
Bright blue eyes  
Staring down into mine saying, "Good morning,  
How are you?"  
I can't lie  
Waking up in a plane without a warning  
Ain't too cool  
Cast ashore  
Without a paddle and no more excuses  
We just drown  
What's the score?  
If you're still willing to lose then  
Come around  
As a matter of fact, I just can't live without you, baby  
I'm wondering if you feel the same way, too  
I'm hugging this pillow tight  
The way we did last night  
The sweat of each other sticky like glue  
Sticky, sticky. 1,2...  
That was the coolest movie ever

The one we saw last night  
The closer you got to me, the less we saw, alright  
The scene you remember most is none of 'em  
That ain't a boast, girl

I'm just in front of them others  
I am a gracious host  
Everybody under me, make a toast  
As a matter of fact, I can't stop thinking about you,  
baby  
When we're together, everything is cool  
Beautiful, lover, friend  
I'll never leave you again  
You and me, we're sticky like glue  
Break down...  
I got something I wanna say to you, baby  
You might wanna dig me later  
I think you better dig me now  
Listen..I can't get to sleep unless your body is right  
here next to me  
It's crazy, baby  
I know it's dysfunctional, but I just can't see myself with  
another girl  
Oh, what in the world is wrong with me?  
Tell me what to do  
Is it me or you?  
We fight so much, and then we're through  
It might come as a shock to you  
But I still love you. Yes, I do.  
Don't you think I ain't when I am  
One more thing and then I'm out  
You get us wet with your pride  
Then you hang us both outside to cry cry  
What's that sound?  
Said it must be raining raining tears tears tears  
But you need to try. Please, please don't cry  
Cause I ain't going nowhere.
