It's just around the corner, it's just around the block
This love that I've been waiting for a love solid as rock
A love that reaffirms that we are not alone
A love so bright inside you, it glows

And night and day would run together
And all things would be fine
Still would stand all hate around us
Still would stand all time, still would stand all time

It's not a thousand years away, it's not that far my
brother
When men will fight injustice instead of one another
It's not that far if we all say yes and only try
Then Heaven on Earth we will find

No one man will be ruler
Therefore love must rule us all
Dishonesty, anger, fear, jealousy and greed will fall
Love can save us all

Oh, love, love, oh love
You just please give us a sign
(Still would stand all time)
Heaven, oh, we all want to find
(Heaven on Earth we all want to find)
Still would stand all time

We are not alone people
(We're not alone)
Tell me can you see the light
(Can you see the light)
If you just open your eyes
(Still would stand all time)
So much you will know
So much you will show

Love, love
(It's not that far away if we all say yes and give it a try)
Gotta give it a try, yes
(Still would stand all time)
I say still

(So many times)
So may times

I thought I could not make it
(Still would stand all time)
Life was closing in I just knew
I just knew I couldn't take it
That's when Love opened it's arms

And if you don't go in child
Still would stand all time
(Still would stand all time)
You better run to the light
(Run to the light)
Leave your past behind
(All things will be fine)
Still would stand all time
