Woah, no. Woah, yeah.  
Woah, no, woah no, yeah, yeah

There's a gentle autumn breeze  
That blows whenever we be lyin'  
Lyin' in my bed  
The moon appears and disappears  
U look at me, my clothes I quickly  
I quickly shed

The curtains dance a minuet  
Autumn plays the music baby  
Come on hold my hand  
Leaves are fallin' velvet splash  
Only u and I can under  
Only u can understand

The sunlight draws a picture  
Through the silky lace that hangs above your  
Hangs above your door  
A picture that is waving  
That is seems to be with every thrust  
U make me beg for more

A robin sings a masterpiece  
That lives and dies unheard  
For screams of passion

A sound produced by two in love (oh, two in love)  
Curtains dance and autumn plays on (and on and on)  
The screams of passion  
All I hear in my [head/hair]  
Echoing like a volcano baby  
The screams of passion  
Back and forth the raging seas of lust  
I want u madly  
Can't u tell, can't u tell  
Can't u tell, can't u tell, Ow!

Take me in your arms, oh baby  
The crime is done  
I'd rather die here in your

Screams of passion (Woah, hold me now, baby)  
Tell me that u [want/love] me (tell me that u [want/love]  
me)  
Is it Sunday or is it passion?

The screams of passion (the screams of passion, yeah)  
The screams of... the screams of...  
The screams of passion (passion)

Yeah! (shhh, not so loud, baby)  
Yeah! (shhh, shhh)

The screams of passion  
The screams of passion  
The screams of passion  
The screams of... the screams of...  
The screams of passion  
The screams of passion  
Back and forth the raging seas of lust  
Raging, raging (the screams of passion)  
U know I want u madly, baby  
Why can't u tell?  
Is it Sunday?  
I thought I heard a churchbell (or was it passion?)  
Passion (Yeah, yeah)  
Passion

The screams of passion  
What'd u say baby?  
Excuse me but is that your passion?  
Do u want my passion?  
Do u want my passion?  
If u want my love  
If u want my body baby  
Let me hear u... let me hear u... let...  
Let me hear u scream

I want some passion  
U know what I'm talkin about baby?

I want some passion  
U got that baby?  
I want some passion  
Passion
