Is it me or did the room just get darker, oh?  
Is it me or did I just lay down and die?  
Is this a dream or did the world just crumble at my very  
feet?  
How in heaven will I ever be alright?

There is lonely and there is lonely  
And then there is how I feel right now  
Perhaps only Cain when he'd slain his brother  
Could ever come close to knowing how, yeah

There is lonely and there is lonely  
And then there is how I feel right now  
Perhaps only Cain when he'd slain his brother  
Could ever come close to knowing how

There is lonely and there is lonely  
Then there is how I feel right now
