Fellow earthlings, please tell me this  
What planet will our children live on if we choose 2 ruin  
this one?

This is my house  
This is my future  
This is my song  
Now bust it

The world is dying from the outside in  
All of us livin' like a preacher livin' in sin  
Trash on trash taller than a mile  
When we're all livin' under it, there won't be nary a  
smile

CHORUS:

Hey, this is my house, this is my future  
My will be done  
Hey, this is my house, this is my future  
My children's kingdom come

Your filthy water, don't pour it here  
Don't wanna drink, don't want the fear  
The air I'm breathing, it makes me cough  
Your hot reactor is going off (going off)  
And I say ...

CHORUS

Stop building bombs and take that money  
2 build a school, huh, and teach the honeys  
About this planet Earth and why we need  
2 take care of this land so there's food 2 feed  
All the babies so they grow big and strong  
This is my house and this is my song

CHORUS

And the choir sing:  
This is my house  
This is my kingdom come  
This is my house

My future (future) (future)

(My house) {repeat 2 fade in BG }

This is my house

This is my future

This is my song

Carmen {repeated echo
