Wait a minute...

Turn the, turn the phones up

Yeah...cool

Lookin' out the window of a big black limousine

Thinkin' bout your thighs

Wishin' I was somewhere in between

In one single motion

Deep inside your ocean

I just wanna be

Underneath the cream

Can't stop thinkin' about Ure...thighs

Somewhere in between

That's where I wanna be, that's where I wanna be

Underneath the cream

You and I, I, I, I

Somewhere in between

Your thighs

Cell phone, passport

All your inhibitions

Spread out on the floor (Deep inside)

Deep inside your life-giving ocean, sugarpop

Rests my consciousness (let me stay)just a little more

Here's what I wanna do, babe

So talk to me

Don't get me started

Come into this wet dream-eternal

Pretend I am you and teach me without shame

Take my hand, put it in the place

That turned you out the most last time you came

Useless deliberation (useless deliberation)leads to
frustration

Trust me, I know

Somewhere in between seven days and nights

That's how far, baby

You wanna go?

Underneath the cream

Can't stop thinkin about ure...thighs

Somewhere in between
That's where I wanna be, that's where I wanna be
Underneath the cream
You and I, I, I, I
Somewhere in between
Your thighs, your thighs

Somewhere in between this wet dream, it seems
I never should've let you go
Now that you've returned I yearn to learn
All the feelings you never dared to show
Come into this wet dream eternal
Pretend I am you and uh let's... Oh
Somewhere in between, I dream
Underneath the cream (2x)

Tell me, tell me, tell me
Whatcha waitin' on baby, tell me
We can do this thing, yeah
Underneath the cream
We need to get right down
'cause I got something ew, ew, ew
Groovy groovy groovy...
(Groovy underneath the cream)
It's groovy underneath the cream
Underneath the cream
