Uno para todos, y todos para uno
March, we march

(Whoa, whoa)
March, we march
(Whoa, whoa)
March, we march
(Whoa, whoa)

If this is the same avenue my ancestors fought to
liberate
How come I can't buy a piece of it even if my credit's
straight?
If all the water's dirty and I wanna lay the pipe, my
dammy
The river that I drink from, will it be the same as your
mammy?

Now's the time to find a rhyme
That's got a reason and frees the mind
From angry thoughts, the racist kind
If we all wanna a change then come on get in line

Next time we march
(Whoa)
We're kickin' down the door
Next time we march
(Whoa)
All is what we're marchin' for

If this is the same sister that you cannot stop calling a
bitch
It will be the same one that will leave your broke ass in
a ditch
If you can't find a better reason to call this woman
otherwise
Then don't cry, you made the bed in which you lie

Now's the time to find a rhyme
That's got a reason and frees the mind
From angry thoughts, the racist kind
If we all wanna a change then come on get in line

Next time we march
(Whoa)
We're kickin' down the door
Next time we march
(Whoa)
All is what we're marchin' for

March, we march
(Whoa, whoa, c'mon)
March, we march
(Whoa, whoa)
Yes we do, dig

Now we clarify forever, in other words as long as it
takes
We ain't got no use for ice cream without the cake
We ain't got no time for excuses, the promised land
belongs to all
We can march in peace but you best watch your back
If another leader falls

March, we march, feet stompin'
March, we march, he said it, she said it and I say

Now's the time to find a rhyme
That's got a reason and frees the mind
From angry thoughts, the racist kind
If we all wanna a change then come on get in line

Next time we march
(Whoa)
We're kickin' down the door
Next time we march
(Whoa)
All is what were marchin' for

Next time we march
(Whoa)
Kickin' down the door
Next time we march
(Whoa)
All is what were marchin' for

The fun don't stop the bacon
That's when the money gonna stop the shakin'
I know that next time we march, yeah
