Sweet dreams

So fair she looked tonight  
The brightest star appeals to your sex  
Before we do anything  
Let me just talk to you

When 2 R in love  
They whisper secrets  
Only they 2 can hear  
When 2 R in love

When 2 R in love  
Their stomachs will pound  
Every time the other comes near  
When 2 R in love

When 2 R in love  
Falling leaves will appear to them  
Like slow motion rain  
Slow motion, slow motion

When 2 R in love  
The speed of their hips  
Can be faster than a runaway train  
Drop, drop, drop, drop, water, water, water

Come bathe with me  
Let's drown each other in each others emotions  
Bathe with me  
Let's cover each other with perfume and lotion

Bathe with me  
Ooh, and let me touch your body 'til your river's an  
ocean  
Bathe with me  
Let's kiss with one synonymous notion

Nothing's forbidden and nothing's taboo  
When the 2 R in love

Can you hear me?

When 2 R in love  
Their bodies shiver at the mere contemplation  
Of penetration  
Let alone the actual act, act

When 2 R in love  
The thought of his tongue in the V of her love  
In his mind this thought it leads the pack

Come bathe with me  
Let's drown each other in each others emotions  
Bathe with me  
Let's cover each other with perfume and lotion

Bathe with me  
Ooh, and let me touch your body 'til your river's an  
ocean  
Bathe with me  
Let's kiss with one synonymous notion

That nothing's forbidden and nothing's taboo  
When the 2 R in love  
In love, can you hear me?

Hold me, yeah, just like that  
Don't move
