Given time I always find love has let me down

I think I see why history says the wheels go 'round and
'round.

And all the love that you can see in every magazine

Only makes me lonely
Leaves me lost and lonely.

I don't agree that you can be in love forever more

You can't believe that somehow it will stay faithfully
yours.

And if you can find that you've got the time
For making love with me

'Cause tonight I'm feeling lonely
I need you just to hold me.

And if you don't really love me - tell me tomorrow

And if you don't really need me - save me the sorrow.
And I don't wanna hear the truth

And that ain't the way to start

I don't wanna hear no lies
'cause they would break my heart.
And if you don't really love me - tell me tomorrow !

With a passion strong I carry on with romance on my
mind

Even though I've got to know the sadness of good-bye.
And just in time you get to find love was just a lie

Because I'm feeling lonely
I just want you to hold me.

And if you don't really love me - tell me tomorrow

...

And if you - and I don't wanna hear the truth

And I don't wanna hear the truth

Oh no

Oh no

Oh no.

I don't wanna hear the truth

And I don't wanna hear the truth.

And if you don't really love me - tell me tomorrow

And if you don't really love me - tell me tomorrow

And if you don't really need me - save me the soncow

And if you don't really love me - tell me tomorrow.
