New beginnings, new life  
Who's to say that you don't know?  
Whoever said I give a damn?  
There's another way

Cuz you're just my backseat driver  
You're my secret plan  
You're my backseat-messed-up  
And I don't give a damn

You wanna know what I wanna say?  
I'll never tell you anyway  
Whoever said that I don't know?  
Whoever said that I give a damn?

Cuz you're just my backseat driver  
You're my secret plan  
You're my backseat-messed-up  
And I don't give a damn

This beautiful sky... restricted behind...  
The room could be brighter  
You're eyes could be lighter  
You're a robot, oh, but...

You wanna know what I wanna say?  
I'll never tell you anyway  
Whoever said that I don't know?  
Whoever said that I give a damn?

You're just my backseat driver  
You're just a secret plan  
You're my backseat, messed-up--  
And I don't give a damn
