"Thank God"

Visit "[Thank God](#)" on MotoLyrics.com

I have many things to be thankful for
The bears, the trees, the honeybees
Despite all the trials I've gone through before
I must admit I'm pretty lucky

But for all of the things I'm thankful for
I must explain was little afraid
Then I thank God most of all
That I'm not like you

Yes I have tears, yes I have pain
But everyday is never the same
Broken hearts come, broken hearts go
If you cannot love
Then you'll never now
That for all of the pain I'm thankful for
I can explain, was little afraid
Then I thank God most of all
That I'm not like you

Now I am free to share my love
To those who are sweet everywhere
And you who are mean because you are afraid
You stay the same and I will not care

Cause for all of the life I am thankful for
I must explain again and again
Then I thank God most of all
That I'm not like you
