Had a feeling you were feeling how i felt about you
Never felt the way i feel when you come around it's
hard to explain it
so hard to contain it, but i don't really want to, i don't
really want to

Oh Oh I know you said you would never hurt me, pinch
me, gently very
i need to know that it's for real yea
i want to know that its for real

Chorus

It is its just everything i dreamed it would be
Every time you touch me love me it is it is hey
It is it is everything I could want and more
it is for sure

had I thought when i was trying not to think about you
never thought that you would think that i was perfect
for you
it's still a mystery and every time we kiss can't help
but think that its
not you thinking that it's not you
Uh Oh I know you said you would never hurt me, kiss
me, gently baby
i need to know that its for real love
i need to know that its for real

Chorus

It is it is everything I could want and more
it is for sure
it is i know i got what i wished for careful what i wish for
it is it is everything i dreamed it would be everytime
you touch me love
me it is it is
~*~Bridge
