yo if lovein you is wrong i dont want to be right
(giggle) i bet you knew i was going to say that
thats because its true

ohhh ohhhh oooo yeah

uh uh

i use to tell you the stories about my childhood
you never ever believed me
about how i slept in trailer on a bed full of paper
uh
okay well maybe im lying
& its seems like lately when where talking on the phone
all you ever say is how i should leave you alone

everybody is telling me what i should do
i cant help myself im so into you
the doctor said that im love sick
well i guess i'll be sick forever
& im sorry to say that you made me this way
& i dont ever want to get better
nooooo
its obvious that im love sick
yeah
& maybe that i should take my medicine
try hard as you may
no matter what you do
i can never get rid of you

you act like you dont remember
how you first met me
way back when we were in grade school
i sat behind you in history
i use to day dream about the day i would have you
& it seemed like if i mentioned you when i was home
all my family said is how i should leave you alone

everybody is telling me what i should do

i cant help myself im so into you
the doctor said that im love sick

well i guess i'll be sick forever
& im sorry to say that you made me this way
& i dont ever want to get better
nooooo
its obvious that im love sick
yeah
& maybe that i should take my medicine
try hard as you may
not matter what you do
i can never get rid of you

ooooohhhhhh

the doctors they couldnt be wronger
i think that we could last forever
dont want stay but i cant leave
nooooo
dont pay attention to them others
they dont want us to be together
i dont see why
because im perfectly fine

they keep on tellin me that im love sick
well i guess ill be sick forever
& im sorry to say that you made me this way
but i dont want to get better
nooo

You keep on sayin that you think im crazy
& that maybe i should take my medicine
try hard as you may
no matter what you do
i could never get ride of you

No x 14

You keep callin me crazy
sayin maybe i should take my medicine
try hard as you may
no matter what you do
i can never get rid of you

(laughter)
