I'll still be loving you

Here we are much more than friends
The truth is love's story ends
But what's it gonna do
Though we tried to work it out
Too many times we had our doubts
But every word I say is true

From now til the end of time
As long as the sun will shine
You'll always be a friend of mine
And I'll still be loving you
Although I have to say good bye
You'll stay here in this heart of mine
And that is the reason why I'll still be loving you

I don't know how we fell apart
So close but yet so far
And that's y nobody knows
But you've been so good to me
A better friend there'll never be
So deep inside I hope you know

From now til the end of time
As long as the sun will shine
You'll always be a friend of mine
And I'll still be loving you
Although I have to say good bye
You'll stay here in this heart of mine
And that is the reason why I'll still be loving you

I will still be loving you
As long as the sun shines
Better believe that I'll be loving you
I will still be loving you
As long as the sun shines
Better believe that I'll be loving you

From now til the end of time
As long as the sun will shine
You'll always be a friend of mine

And I'll still be loving you
Although I have to say good bye
You'll stay here in this heart of mine
And that is the reason why I'll still be loving you
