"Edge Of Heaven"

I would climb a mountain,
To have reached the edge of the world
I would be scared of falling,
I would be scared to fail
I even reach the edge of heaven just to be with you

I wanna reach up to the ray of light,
Wanna taste a long and lasting life,
Till the edge of heaven
I wanna reach up to the ray of light,
Wanna taste a long and lasting life,
Till the edge of heaven, till the edge of heaven
Till the edge of heaven
Till the edge of heaven, till the edge of heaven

Just a day with you

To be with you

I wanna reach up to the ray of light,
Wanna taste a long and lasting life,
Till the edge of heaven, till the edge of heaven
Till the edge of heaven
Till the edge of heaven, till the edge of heaven
