### "Night To Remember"

Visit "[Night To Remember](#)" on MotoLyrics.com

Hey little girl, I'm a man of the world  
Some say I've been around  
Hey little girl, can I show you the world  
Lay down beside me now  
Never forget, this moment we met  
Forever recall this night  
Doin' it all on a night to remember

Night to remember, a night to live on  
A moment together, it's here then it's gone

Turn out the light, look in my eyes  
Open your heart to me  
Love on the run, it's only begun  
Darlin' I know you'll see  
Sweet talk and wine, spendin' the time  
Learnin' what love's all about  
Never forget, this moment we met  
Don't let it end without doin' it all on a night to  
Remember

Night to remember, a night to live on  
A moment together, it's here then it's gone  
A night to remember, a night to live on  
A moment together, it's here then it's gone

Sweet talk and wine, spendin' the time  
Learnin' what love's all about  
Never forget, this moment we met  
Don't let it end without doin' it all on a night to  
Remember

Night to remember, a night to live on  
A moment together, it's here then it's gone  
A night to remember, a night to live on  
A moment together, it's here then it's gone  
A night to remember, a night to live on  
A moment together, it's here then it's gone
