The worst thing that could happen
Had happened to me
My best friend and my baby left town for California
Without saying anything

Everybody gets a little rain sometimes
Everybody gets a little rain sometimes

I've seen it before, I'll see it again
Now I just let it pour down
'Cause there's nothing you can do about it
... you just get wet

Everybody gets a little rain sometimes
Everybody gets a little rain sometimes

(Chorus)
Take your overcoat
Get your rubber soul
Put your rain hat on
It's getting cold
When clouds appear, be careful dear
The weather changes suddenly

The best thing that could happen
Has happened to me
My baby's in the city
Wants me to forgive her
But I can't bring myself to tell her

Everybody gets a little rain sometimes
Everybody gets a little rain sometimes

Chorus

It falls and it falls
Always gonna, always gonna fall

Chorus
