"See Forever Eyes"

Visit "[See Forever Eyes](#)" on MotoLyrics.com

Looking right through you she knows who you are she's
got
See forever eyes
A spirit obsessed, a vision possessed with universal
Inner sight
No stranger to love she's had many men but none of
them
Survived
Her crystal excites so follow the light of her see
Forever eyes

CHORUS

See Forever Eyes
See Forever Eyes

Beholding the mirror her eyes give a feeling of lonely
Vacant skies
Soaring above always searching for love the soul within
Her flies
Caught by a glance, in a gossamer trance, woven by
her
Lies
Compelling them nearer, dispelling their fear with her
See forever eyes

-SOLO-
