For the plans you made long ago
Hear the engines roar as we walked through the doors
I just can't believe this dream is over
Virginia look up in the sky, don't it bring you sorrow
We know when ever you gonna fly, I will be there
tomorrow
Virginia, Virginia don't go
Virginia, Virginia don't go
It's easy to release me when you're three thousand
miles
Away
You no longer care, when I'm no longer there
And all the love we have will fade away, fade away

Virginia please hold on to me, don't leave it all behind
Is there something I can say, that will change your
mind
Virginia, Virginia don't go
Virginia, Virginia don't go

So look around you now at this faceless crowd
You can walk right out and forget it
Virginia we got too much love to bring it to an end
And I know if I let you go, I'll never see you again
Virginia, Virginia don't go
Virginia, Virginia don't go
Virginia, Virginia don't go
Virginia, Virginia don't go
Virginia, Virginia don't go
