Makin' a mess since '77

I've heard too many songs of peace and love  
Love took a piece of my heart  
By now I'm a pissed off man  
I hate with my broken heart, I can't love...

No place to call home  
I wonder what it's like to see it all through your eyes  
As hard as I tried to keep going on and get it  
undone...  
'cause you're my number 1

Makin' a mess since '77  
Makin' a mess since '77

Too many times they say what is right  
But I would not change a day  
I won't waste my time for the corrupted goals  
It's pay back time and I never get old...

No place to call home  
I wonder what it's like to see it all through your eyes  
As hard as I tried to keep going on and get it  
undone...  
'cause you're my #1

I said I never let you go, but you're gone with the flow  
You took a piece of me with you...  
I picked the star from the sky  
All in the name of you and I  
It's all gone for good...
