He who dies with the most toys, wins
Who despises the poverty, can live forever
Goodbye the poor and feebleminded
Defy the sense of wrong or right, together

I want the whole world money to spend
I'm independent, you're what you eat, my friend
Give 'em all you've got or throw it away
Let's jump off the roofs today is the day

Lips are movin' without a sound
Money makes the world go around
Handshake, but not for a shitty dime
Prime time for white-collar crime

He who thinks mind over matter, stinks
If you can't buy her love, you should pay her drinks

I want the whole world money to spend
I'm independent, you're what you eat, my friend
Give 'em all you've got or throw it away
Let's jump off the roofs today is the day

Lips are movin' without a sound
Money makes the world go around
Handshake, but not for a shitty dime
I'd rather commit a crime
Lips are movin' without a sound
Money makes the world go around
Handshake, but not for a shitty dime
Prime time for white-collar crime

He who dies with the most toys, wins
Who despises the poverty, can live forever
Goodbye the poor and feebleminded
Defy the sense of wrong or right, together
