

## **Process Of Guilt "Window"**

Visit "[Window](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Here I can witness  
This image in your window  
From here I can see  
The collapsing colors of your empire  
Draining my perception  
In this instant of your grief  
Closing my eyes  
Fading out in my believe  
Why can't I breathe?  
Why should I even consider?  
Am I a renounce?  
Why can't I breathe?  
Why should I even consider?  
Am I a renounce?  
Or maybe a faded image  
From this window  
I can reach you  
Still I stood still in here  
Drawing an end to your world  
In a single smile  
In this illusion of life  
A symbol of pain  
A symbol of my pain
