"Baby Got A Temper"

Visit "[Baby Got A Temper](#)" on MotoLyrics.com

You can see me coming from a mile off

Once again ignite the skyline

She's gonna be printed on money

Just like your royal family

(This ain't no holiday)

This time there can be no funeral

(I'm vibing, can you feel me?)

We love, she got,

We take

Just forget it all

We love, she got

We take

Just forget it all

Just forget it all

This baby's got a temper

This baby's got a temper

This baby's got a temper

You'll never tame her

You can see me do another parallel

Better bow down, you're not worthy

(Hey get off my planet, yeah)

Last time I'll be your prisoner

No name no number

(Revolving, dissolving)

Shooting through the trap door

What I think don't matter anymore

(I'm vibing can you feel me?)

We love, she got,

We take

Just forget it all

We love, she got

We take

Just forget it all

This baby's got a temper

This baby's got a temper

This baby's got a temper

You'll never tame her

This baby's got a temper

You'll never tame her
