[Verse 1]

Baby you the type love only come around once
Babe girl you my world, you my soul,
Blood â€¦ in my flesh, you ain't never gotta stress
Relax, I ain't never gonna leave you or mislead you
Cross my heart hope to die, with needles in my eyes
God created us for each other
We tougher than all the others,
We the best, you and I, competition
Nah, we got them by a land slide
Up in the G5, drunk off of love,
Swerving, got the plane ribbons in the sky
I never thought I, would come home from jail
And fall in love with baby girl
Look, fuck what you heard, look think of all â€¦
While we laughing so hard, we might piss our past
Look, the echelon that we on is beyond anything they
dream
You the queen of hearts and I'm the king

[Chorus]

Oh, you're gonna say some shit
Like he's not the one for me
When everynight he's here for me
I won't let him down, I won't never, never leave his sight
He's my angel, my whole
He's my gangsta loving, he's my gangsta loving
He's my gangsta lover, a gangsta lover, lover, lover

[Verse 2]

When I first met you, I ain't digging you'll want me
My lifestyle too hood, my music too â€¦
That New York bullshit yeah, I'll be on it
Ice cold blood, some say I'm black hearted
But you sorta guarded me, show me what a real love is
In a true romance
I would never leave you, you give me so much strength
I need you to live, and would much rather die
Than to be without you
I'm so attached to you, can't breathe without you
When people try to break us up, you're not caring

You turn they volume down cause you ain't tryina to
hear it
They can't tell a thing about you baby
Look, the echelon that we on is beyond anything they
wildest dreams
You the queen of hearts and I'm the king

Baby, you're the one I wanna love, the one I wanna trust
The one I wanna kiss, the one I wanna touch
And now, I only $\hat{\epsilon}$ through the haters baby
Cause they put a G just to lie, I bet you keep g'd on me
Make me feel like I'm the only one, that you ever love
But you are, ever love,
He's my gangsta loving, he's my gangsta loving
He's my gangsta lover, a gangsta lover, lover, lover

[Chorus]

Oh, you're gonna say some shit
Like he's not the one for me
When everynight he's here for me
I won't let him down, I won't never, never leave his sight
He's my angel, my whole
He's my gangsta loving, he's my gangsta loving
He's my gangsta lover, a gangsta lover, lover, lover
