It is all good we are on the same page  
And you ain't got to stress let's get your name change  
Everything that didn't killed us made us stronger  
Like the pennies that you found you wanted me to call  
on  
And if the shoe was on the other foot I hit the ceiling  
Like the audacity you need me to play with your  
feelings  
I had you going crazy friends telling you to leave me  
Held them down put them in their place when they were  
talking greasy  
I never like them bitches but I am not into picking  
Your friends is your decision unless they play positions  
I told you from the jump that it will be a roller coaster  
Don't get that motion sickness on me now just hold me  
closer  
We are almost at the finish line we are getting closer  
Can't you see I can see right around the corner  
But you keep saying that is about to bounce fuck with  
me  
But then you say you love why the fuck are you fucking  
with me

Here is the thing every time I go I am back around  
Pull me back to the heat and out it doesn't matter what  
we are going through  
I ain't leaving so let's go do it now or never I have been  
thinking about forever  
Every day see that is the thing  
I love you hate you love me and you get me back  
We are doing it we had that good make up sex  
We are doing it we had that good angry sex  
Some say the arguments make the sex strong  
Extraordinary not your ordinary climax called you a  
dirty bitch  
While you call me a type of wild shit pulling on my .  
while you ride  
I am close to the finish line I ask if you are stupid you  
ask if I have seen there  
Care you sideways flip you upside down I got you  
upside out

Take it easy when you  
Here is the thing every time I go I am back around  
Pull me back to the heat and out it doesn't matter what  
we are going through  
I ain't leaving so let's go do it now or never I have been  
thinking about forever  
Every day see that is the thing
