Reminds me at nighttime, the boulevard
Makes me think of murder, when you least expected it
Reminds me to keep that thing within reach
For niggas tryina catch you, put you on camcord
All they gonn see is blood, put that on the blog
Have me sitting up
Doing 15 in tin cans
Hot as hell fuck a lil comisary fan
And core craft so, they thought I was jokes
He assumed it was an easy mark, now he knows
All I do is chill, I be known my value
Pushing my threshold, I turn up the valium
Talking gay shit, I put these bullets inside you
You're my gun straight homo, my knife fuck torso
Now you suppose that, and let the wounds marinate
Pussy...

Take a good look at my wrists, this where my pockets

Gold chains, gold rings, try to scheme, then that

For rock america, catching bodies for fun
And when them cops come, rushing the lobbies we run
Got your girl twerk it, everytime that she come
And if chains get that hoe on the molly, she done
Them o shea, grind hard get no sleep
That's why I rest that coke boys and that infamous
And we roll deep
Goons talking that straight heat,
So keep a cool like ac's
Smoking on that og, my kush loud like my dre's be dog
Quit talking like you real, you ain't never been
If my youngins spin the block, they gonn let it ring
Break em off, sound proper
