[Chorus]

We ain't got no time, in the city of gold
Trying to get me some sunshine
And avoid the patrol
Ah yea

[Verse 1]

I'm fed up
All I want is a little nice weather when I get up
A lot of people arrive zealous
But life is less a dream, more a nightmare
Welcome to the city of gold, the city I roam
Home to the grittiest rodents
It's hardly a party, getting our p's
On the same corner where women sell narni
I live amongst vermin I'm stuck
But I couldn't give a, fuck as long as I'm earning
Long been accustomed to the ways of the manor
The filth are an occupational hazard
Parked chilling in a car park grinning
It's gone midnight an I'm half past sinning
Got a dark heart wicked with my ras clart lyrics
I'm a bad boy you don't wanna start no shit with

[Chorus]

We ain't got no time
(No time on these streets, everybody's hungry and
trying to eat)
In the city of gold (Everybody's out for their own, it's
hot round 'ere even when your out in the cold)
Tryin to get me some sunshine (It's hard to find peace
here, never can you be easy, always gotta beware)
An avoid the patrol (But that's life in the inner city, up to
bother trying not to get collared by the piggies)
Ah yea

[Verse 2]

Time's precious
An it moves fast in a city full of bright lights and tight
dresses
Medusa's that'll seduce ya if ya ain't ready
A city that makes few and breaks many

The city I'm in's, less like the city of gold
More like the city of sin
Where everybody's in it to win
From villainous nippers to city slickers with sinister
grins
Straight, ain't religious, never been into hymns
An I pushed bars before I'd ever been in a gym
So for my freedom I keep hoping

Cause I don't wanna walk through the doors these keys
open
I don't know if you think it's nice or something?
But I can show you a different side to London
To think you came here for the treasure?
But nobody ever came here for the weather

[Chorus]

We ain't got no time
(No time on these streets, everybody's hungry and
trying to eat)
In the city of gold (Everybody's out for their own, it's
hot round 'ere even when your out in the cold)
Tryin to get me some sunshine (It's hard to find peace
here, never can you be easy, always gotta beware)
An avoid the patrol (But that's life in the inner city, up to
bother trying not to get collared by the piggies)
Ah yea

[Verse 3]

Jack the lad I put the work in
For the wage of sin
Even if by some poor sod's loss
I care not I will take the win
Many came so full of hope
Only to be deflated
The roads we walk ain't paved in gold
Alone is how our days spent
Don't think cause I'm polite that I'm nice g
Or cause I'm well dressed I ain't grimy
I got food for them city heads
Just another aggie yout that the city bread
The cloud I'm under thunders loud
I ain't waiting for the day the sun comes out
If you wonder what I'm under now
The same shit I was and will be till I'm underground

[Chorus]

We ain't got no time
(No time on these streets, everybody's hungry and
trying to eat)
In the city of gold (Everybody's out for their own, it's

hot round 'ere even when your out in the cold)
Tryin to get me some sunshine (It's hard to find peace
here, never can you be easy, always gotta beware)
An avoid the patrol (But that's life in the inner city, up to
bother trying not to get collared by the piggies)
Ah yea
