

Professor Green "Spinning Out"

Visit "[Spinning Out](#)" on MotoLyrics.com

(verse 1)

My mind I'm out of it
got a bottle of jack time to drown in it
I made it here but don't know how I did
who'd of thought that the sheer amount of shit I been
through would amount to this, how about a spliff
I feel like I'm spinning out, it's kind of surreal
all of the shit I been around, now months sinse I
licked an ounce out shit just switched to rhymes
I still haven't figure out how

(Chorus)

With your feet in the air and your head on the ground,
let's try this trick, spinning,
your head will collapse, there's nothing whether to ask
yourself, where is my mind x3
ohhhhh
way out in the water seeing swimming.

(Verse 2)

My lifes a rollercoaster, a fucking hurricane
got a past which I wouldn't wanna tuck away
there were minutes were I wish u could'a run away
sucker i stayed stuffer but I live to see another day
and look how quick it changed up, it's insane blood
fuck the fame im still the same as when I came up
but now I get payed get laid quicker, drink straight
and make a face like I hate liquor,
i had a lot to prove from i had to shop with lu
my nan turns the tv on and on the tune
summer time with lill and were on the yacht with muse
if you can see the gap between the from and the too
it's crazy

(Chorus)

Where is my mind x3
way out in the water seeing swimming

(Verse 3)

from the gloom and the upset
to women coming in pairs and im enjoying the fruits of
my success

still adjustin' i aint adjusted just yet
im kept scruffy and i puff zest
so hows success i guess its okay
so long as you dont mind a little cocaine
no sleep and women who go both ways
its easier to appreciate when you've known pain
buying things i never thought id ever own
about to buy a crib and aint ever home
seein places id never thought id ever see
i guess it had to even out eventually
it might of evened out but even now
why im flying high i can still see the ground
the clocks ticking but i aint watching the time
for now im enjoying the ride

(Chorus)

Where is my mind x3

(outro)

yeah

you know its mad cause i aint even a fan of change
id much rather have notes in my pocket but
for once things changed for the better
i took a risk and i payed of ha ha
it might of taken a while to do so but it finally did
and whats left to do but enjoy
