No more time left to cry  
Kiss our old life goodbye  
All this time we've been asleep  
But each new day brings changes  
with the breeze

Ginger is freedom  
Ginger is all I want  
Ginger is freedom  
Ginger is all I want

All we have is to try  
We're not born just to die  
To fight or help you run away  
Forget our pride and all of our mistakes

Ginger is freedom  
Ginger is all I want  
Ginger is freedom  
Ginger is all I want

It's all too real  
Each breath we steal never lies  
Our fate is sealed  
Just keep the hope in your eyes

Ginger is freedom  
Ginger is all I want  
Ginger is freedom  
Ginger is all I want
