

## Program The Dead "Guns And Butter"

Visit "[Guns And Butter](#)" on MotoLyrics.com

It's guns and butter on Sunday  
and arguments on Monday  
We're broke and it's not payday  
It's the first so happy May day

I'm too busy  
to worry about the world...

There's other boots under my bed  
I can't recall just what you said  
The excuse was so good and grand  
I even bought it and told my band

I'm too busy  
to worry about the world...

I went back to unlock the door  
I didn't live there anymore  
We had to crawl in past the snake  
and pick up all of our mistakes

I'm too busy  
to worry about the world,  
Just too busy  
to worry about the world...
