Body covered  
with blood and sperm  
as I shut the angels eyes

Memory's failing  
but I am sure it was God  
That told me: they have to die

I'm forever lost in darkness

I am the chosen  
Am the one divine  
I have to kill to enjoy life... Die!

The Calling, The Voices  
Inside me, They whisper  
God called me, I had to cleanse her soul, I had to  
cleanse her soul  
The dagger, The stabwounds  
Wide open, she called me  
To come inside  
and she begged for more  
and she begged for more  
and she begged for more

I am impossible to cure  
I'll enter heaven for this I'm sure  
I am the serpent  
Christ is the whore

I'm forever lost in darkness

Body soaked  
in bile, semen and sweat  
I love to sleep with the dead  
Cannibalistic ways  
to achieve my cause  
to erase the whores that stray

To erase the whores that stray  
To erase the whores that pray  
To erase the whores that stray

To erase the whores that pray

My blood is spilled, I'm turning black  
Through my lips, the softest cry

Here is all forgotten  
To never be regained, never regained

And here is all forgotten  
To never be regained

I am not to be blamed for murders  
I am insane  
Since birth I've been raised by angels  
Now I deviate  
I'm not to be blamed for murders  
I'm insane  
I'm insane  
Now I deviate

The night was falling  
When angels mourned that day

Here is all forgotten  
To never be regained

All forgotten,  
when my life slipped away

I'm forever lost in darkness

Teeth sunk deep  
Into desecrated flesh  
Aroused inside the dead  
Necrophiliac lust  
sexzombified  
what went wrong inside my head'  
Nothing!  
I am on a mission from God!
