"Disciples Of The Apocalypse"

I breathe the endless lies
And let the truth lie beside me
So let the mourning cleanse my soul
For my disciples yet to be my whole

Walk with me children
Let me show you how it's done
How to end the whores, the angels
Follow me I'm the chosen one

Don't trust the tears she shed for you
She's nothing but a whore
Believe in me I am the truth
Your saviour in this war

Believe me and my tears
You will never inhale the truth
I rest beside dead angels
You will walk the path I choose for you

Close up to me and watch my soulless eyes
Burning red as blood on ice
Let's burn the heavens, let's cross the Styx
Disciples of the apocalypse

The heavens burn my eyes
I am the whore of the apocalypse
Will you fall with me while falling
Blinded into the abyss

You will never speak the truth again
I swear...you'll be misguided
So bless me father once again
I'll bear the scars with joy

She feed your mind with feeble lies

About salvation about loss
Let's bless her ass we did
Now nail her to the cross

Our souls combined could make this world collide

The perfect universe we could create
With no more lies of a paradise
A never ending well of hate

Semen mixed with angels blood
Laughter mixed with cries from God
Fulfill her wish, make her whole
Let her bleed foreverwhore

So rape me demons, make me whole again
I swear...I'll bleed it once more
So bless me Christ, father of flies
I'll bear the scars you wore

Disciples of the apocalypse
Bless her with demonic seed
Forget about Christ, forget all lies
Send her to the abyss

You will never see the truth again
I swear...you'll be misguided
So bless me demon once again
I'll heal the scars I'm dealt

You will never see the truth again
I swear...you'll be misguided
So bless me demons once again
I'll heal the scars I'm dealt
