Music:Olsson / Lyrics:Jarrebring

I'm finally here  
At the edge of my life  
Sacrificing myself to you  
My body is frostbitten and wounded  
Bleeding for the christian sword  
I lay down my sword  
And raise my knife  
Summoning you

Take me to the place  
Where death is just over night  
Where christians never shall rule

My earthlife is over

But I'll live on  
In thy mighty halls  
A warmth is filling me  
From inside

A fire in my heart  
Bloodsmell fills the air  
Warm blood on my hands  
A fall on my knees  
Never to rise again  
In this feeble earthlife  
I'm waiting for  
Your valkyries arrival
