[Music:Olsson, Blomberg / Lyrics:Olsson]

Behind the horns I stand  
My dear friend, take my hand  
I'll lead you from the light  
Into the darkest night  
Only one way to follow  
Through pain, suffering and sorrow  
Dressed in black and leather we are  
Inverted crucifix and pentagram star

No books filled with lies  
Open our misled minds  
We can only live for ourselves  
Can't believe all that tales  
Together we'll find reality  
The only way to immortality  
Souls of evil will show our way  
Join us or you'll pay
