Day of darkness, hatred burns my soul  
Numb and indifferent, dark side takes control  
Living abomination, reject of society  
You mark my words, I'm the last one you'll see  
Haunting the innocent gives me a thrill  
Sick and depraved shooting people at will

I open fire on the crowd  
Dying people, vomiting blood, screaming loud  
I watch their blood spill and spurt  
Bodies lying limb and twitching in the dirt

There is no escape  
For the fucking ones I hate  
I'll gun you down tonight  
Don't try to run and hide  
Victims shot in a row  
People are dying slow  
Can't control my twisted mind  
A trail of corpses left behind

Day of darkness, hatred burns my soul  
Numb and indifferent, dark side takes control  
Haunting the innocent gives me a thrill  
Sick and depraved shooting people at will  
My final day, the best I ever had  
Mass murder rampage, I'll kill until I'm dead
