All that's left  
Are facial impressions  
Of bitches that left me  
Caused the corroding of my sanity  
Desperation surrounds me like a veil

Living in the prison of flesh  
A shell of imperfection  
Well, fuck you bitch!  
If I can't have an erection

Exploring of a mind so numb  
What's the way for me to cum?  
Copulation doesn't work for me  
Is scarlet the color that roughs me

Pale fingers stroke my cavity  
Where normally a cock used to be  
Amputated hands in my bed  
As I sit on her decapitated head

Your bloody but cheeks in my face  
Your mocked lead to disgrace  
Now all you bitches feel my hurt  
If you're never seen a hole squirt

[Solo: Roel]

Your bloody but cheeks in my face  
Your mocked lead to disgrace  
Now all you bitches feel my hurt  
If you're never seen a hole squirt
