The mankind always look for scapegoats  
And we germans fit very good for that  
Well our history is full of blood  
But look at the history of other countries  
No blood? No war? No killings? I don't see that!  
Aggression, violence, invasions everewhere!  
Corpses, ruins, killing - the world bleeds  
Opression? A leader? Warplans? In our lands?  
Freedom? Justice? Equality is what counts!  
Please learn now, or believe what you want!  
Disgusting smiles, defame - oh, so nice  
If you don't know better? Please, shut up!  
I am so damned sick of it! Wouldn't you be too?  
You call us nazis - We're no fascists  
We're germans - We're humans like you!  
Let's free the earth from dictators  
Genocide, murder, rasism - stop it!!!  
Terror, injustice, fear must leave our planet  
Let us build a new, better world  
Nobody shall ever suffer again!  
Never again!!!
