

Protector

"Whom Gods Destroy"

Visit "[Whom Gods Destroy](#)" on MotoLyrics.com

Sudden aggressive outbreak
Fading foggy reality
A mighty thought called freedom
Changes the true identity

Impulsive lust for power
A deadly force mixed with hate
The glory of the moment
Nightmare of the universe

(Repeat first verse)

(Repeat second verse)

(Chorus)

Whom gods destroy - Just and wise
Whom gods destroy - For spreading lies

Whom gods destroy - The sentence: death
Whom gods destroy - With their wrath

To all wulfs: Attack!
Forward, spread the word of pain
Feelings, so invincible
Self deceit's a deadly trap

In the end it's over
The evil side has lost again
Aggressor's fallen and beaten
Thanx to holy cleverness

(Repeat Chorus)
